Subject: RE: [EXT] RE: Engenia supplemental labeling for states?

Hello Emily,

I wanted to confirm that the requested label amendment and associated supplemental labeling for Engenia herbicide has been submitted via the Portal. Please find attached the email confirmation and copies of the proposed Engenia herbicide (clean and annotated) label and supplemental labeling as submitted.

Please note that the new www.EngeniaHerbicide.com/labels website is not yet live.

Please let me know if you have any questions.

Thanks,

Jeff

Subject: RE: [EXT] RE: Engenia supplemental labeling for states?

Hi Jeff,

Thank you for sending this and the one for Iowa. We have reviewed the labels and have a few comments (PDFs attached).

It has been decided that the best way to get this information out to the user is to have each registrant set up a website that will hold supplemental labels and add a general direction to the master label that says, "You must check [X website] for state specific restrictions within 30 days of application of this product." That way, if there are changes to these supplemental labels, or if other states want to add supplemental labels, the master label won't need to be updated every time. Additionally, we'll need a supplemental label with this direction since some of the product is already in the hands of the users and can't be relabeled with this direction. You can submit both of those as a fast track label amendment.

If you have any questions about this, or about any of our comments, please feel free to reach out.

Best regards,
Emily

Hello Emily,

I wanted to let you know that BASF has submitted a proposed Engenia supplemental label specific to Minnesota's requested additional use restrictions.

I have attached copies of the submission documents along with the following submission reference.

CDX_2022_000474

Please let me know if you have an immediate questions or concerns.

Thanks,

Jeff
